

## Substation & T&D Structures

Substation gantries | Equipment supports | Transmission line towers

### TECHNICAL SPECIFICATION SHEET

<b>Material</b>	MS angle / channel / tubular, hot-dip galvanised
<b>Voltage class</b>	11 kV to 765 kV substations
<b>Galvanising</b>	Hot-dip 86 microns min (IS 2629 / IS 4759)
<b>Design codes</b>	IS 802, IS 875, IEC 60652
<b>Fabrication</b>	CNC cutting, drilling, welding to drawing
<b>Finish</b>	Galvanised / painted as per spec
<b>Testing</b>	Mill test certificates, galvanising thickness reports

*This is a sample specification sheet. Final specifications are issued against project drawings.*
